(c) Stair Nosing Australia

Profile 70 have been designed to offer lasting slip resistance. They are made from a composite material that is suitable for use in harsh environments; including, high exposure to salt water. During the manufacture process silicon carbide is incorporated to form an inseparable gritted surface. Profile 70 are available in yellow with UV protection and a heavy duty silicon carbide anti slip grit for serious slip protection.

Stair Nosing Australia

Industrial stair nosing

- * 70 mm tread and 10 mm riser
- * 70 mm tread and 25 mm riser

Profile 70 stair nosing is suitable for installation off-Shore or on hard surface stairs such as concrete, steel, chequer plate, timber etc.

Maintenance -Nosings with carborundum inserts or FRP nosing's maintain appearance by using a blower or a stiff brush to clean. No chemicals or abrasives can be used. PVC inserts maintain appearance by cleaning with warm soapy water applied with a firm brush, not an abrasive brush and no chemicals can be used.
